

2022 Field Season Report

2022 Partners

Serve Wyoming/ AmeriCorps

Devon Energy

The Northern Arapaho Tribe

The University of Wyoming

- The Haub School of ENR
- UW Foundation
- UW Outdoor Program
- UW Veterans Service Center

State:

- Wyoming State Parks and Historic Sites
- Wyoming Game and Fish
- City of Buffalo Parks and Rec Dept.

Federal:

- Medicine-Bow National Forest
- Bighorn National Forest
- Devils Tower National Monument
- Grand Teton National Park
- Casper BLM Field Office
- Cody BLM Field Office

Non-Profit:

- Pilot Hill Inc.
- The Nature Conservancy
- Backcountry Hunters and Anglers
- Absaroka Fence Initiative

Each season the WCC partners with Non-Profit, Local, State, and Federal land management agencies on high priority conservation projects to engage young adults in meaningful service on public lands in Wyoming. As part of the University of Wyoming, we can offer top notch trainings and certifications through ENR 3700 & ENR 4950 that translates into high quality craftsmanship for our partners and helps train our AmeriCorps members to become the next generation of public land managers.

Our Connection with AmeriCorps

The Wyoming Conservation Corps receives significant foundational funding from AmeriCorps, through Serve Wyoming. This partnership allows us to provide low-cost alternative to our partners for achieving high priority conservation projects while producing incredible experiences for our AmeriCorps members.
